

COPYRIGHT & PLAGIARISM POLICY

Plagiarism

The course assessment is designed to allow students to express their own understanding of the relevant theory and its application to the modules and to their own business experience.

In order to be marked as "Competent" on a piece of assessment, a student must be able to demonstrate their own understanding of the topic by presenting the assessment in their own words and incorporating their own ideas.

Copying sentences and blocks of text directly from readings textbooks, or other documents including copying the work of another student does not demonstrate a student's own understanding of the topic. Such practices will be regarded as plagiarism unless the source is appropriately acknowledged.

Students who are unable to appropriately demonstrate their own understanding of a topic will be marked "Not Yet Competent" and will be required to re-submit the assessment.
